PROFESSIONAL EXPERIENCE

Data Analyst (Early Career) 07/2025 - Present
IIIDM international consulting, s.r.o. Czechia

- Working on data quality and automation pipelines in the international ecosystem.
- Writing Python scripts for validation, API integrations, logging, and ETL optimization.
- Developing Streamlit apps for data review, deduplication, and internal dashboards.
- Supporting real estate analytics projects — connecting data insights with business goals.
- Managing datasets from multiple sources (CSV, Parquet, REST APIs) to ensure consistency and reliability.
- Improving internal documentation, ensuring process transparency and data integrity.

Freelance Web Developer 01/2025 - Present
Selfemployed Czechia

- Designed and delivered responsive websites for small businesses using Node.js, TailwindCSS.
- Focused on clean UX and easy-to-maintain static structures.
- Combined technical and analytical skills to deliver customized digital solutions.
- Open to further freelance collaborations in data or web development.

Founder & Project Administrator 05/2022 - 10/2025
Valeolla consulting, s.r.o. Czechia

- Founded and managed a small consulting business focused on administrative support and funding documentation for public and private sectors.

Sales Team Manager – Cybersecurity Solutions 12/2022 - 12/2023
DoxoLogic, s.r.o. Prague

- Lead a team of 4 sales representatives focused on selling cybersecurity and IT infrastructure services to corporate and public-sector clients.
- Supervised daily operations, target setting, and performance tracking to ensure consistent sales growth.
- Collaborated closely with technical specialists to translate complex IT offerings into client-ready business value.
- Analyzed conversion metrics and pipeline data, achieving a 20% monthly performance improvement.
- Developed leadership, analytical, and communication skills applicable to both business and data-driven environments.

Sales Representative 07/2020 - 10/2021
Bohemia Energy, Czech Republic South Moravian Region

- Worked with pre-qualified leads generated by the internal call center, achieving an average 80% conversion rate in hybrid (field & phone-assisted) sales.
- Built a portfolio of 200+ active clients.
- Delivered tailored energy solutions to households, optimizing pricing and efficiency.
- Consistently exceeded monthly sales targets by 15–25% through effective communication and relationship management.
- Strengthened negotiation, presentation, and client-oriented skills — a foundation for later data-driven and analytical roles.
